Specials - Distance Learning

STEM Ideas-May:

<p>Fun Celery Experiment</p> <p>or</p> <p>Plant some seeds/plants and watch them grow!</p>	<p>Play a Board Game and practice counting only as you jump spaces.</p>	<p>Songs that count forward or backward, such as 5 Little Speckled Frogs or Ten in a Bed</p>	<p>Bake or cook something today! Can you pay attention to the fraction measurements? Halve or double the recipe? Figure out start and end times (how long did it take from start to finish?) Count scoops? How did what you made change as it cooked or baked?</p>	<p>Build with blocks</p> <p>Can you make the tallest structure? The strongest structure? The shortest structure?</p> <p>What do you notice as you build? What do you notice about the blocks you are using?</p>
<p>Try to notice math, shapes, or patterns somewhere today!</p>	<p>Make a Water Cycle Bag</p>	<p>Play How Close to 100 (multiplication)</p> <p>Directions</p> <p>Game sheet</p> <p>(Spanish)</p>	<p>Place Value Path Games</p>	<p>Make a 100 chart puzzle</p> <p>100 charts</p> <p>Cut up charts into Tetris style shapes and put them together again! (use any 100 chart you wish)</p>
