

# From Stroke To Serving Once Again!

Harold and Bertha Ware are known for their 30+ years active dedication to serving adults and generations of children in the schools, church community, and Stateline Area. Their life has been one of gratitude as evidenced by their unselfish giving of time, resources, and encouragement.

However, in September of 2023 a sudden stroke paralyzed Harold's right side. Through this Harold and Bertha's attitude of gratitude has remained strong. Bertha has faithfully been Harold's full-time caretaker. It has been difficult for her to transition Harold out of the home without reliable transportation. This has left them virtually homebound.

They have a desire to resume their serving. A mobility consultant has confirmed the couple's need for a converted wheelchair accessible van that is not covered by insurance. Please take this opportunity to help give back to this couple who have given so much to those around them.
