About Us

Little Sprouts Nursery & Preschool is a licensed daycare center for 84 kids ranging in ages 4 weeks- 13 years old. Little Sprouts primarily focuses on providing care for children ages 4 weeks - 5 years old. There are 6-7 classrooms and each classroom has a lead teacher and an assistant teacher. The building isn't your typical center. It is an old house that was expanded throughout the years and has been turned into a childcare center. This makes it have a feel of home throughout the center.

Healthy Meals

We provide breakfast, lunch, and a snack to every child who attends. All meals are cooked in house and are made fresh daily. We strive to provide healthy, well-balanced meals that are as organic as possible. We are even going to grow food in our garden!

Curriculum

We are excited to be using Funny Daffer for our curriculum. It will be used for all of our classrooms. It targets literacy, math, science, social studies, gross and fine motor skills, social skills, and so many other great things! It is was created by teachers in Florida and Georgia and is a widely used curriculum in Early Childhood programs throughout the United States. Our teachers can share with parents/guardians lessons, games, and resources that we are working with to help your kids at home.
