

After School Program

After School Programs provide care for parents on a fee for service basis. The After School Program is designed to provide an affordable service to working parents who are looking for quality child care options and who are concerned about where their children spend time after school. Program Leaders are positive role models who provide traditional recreational activities, educational enhancement programs and physical activity each day. The programming focuses on providing children and youth with a safe, supportive place where they can develop confidence and skills for life.

GREAT FUTURES START HERE.

**Register early at the Club or
at your Back to School Night!**
