

November 2019

Dear Parents and Guardians,

We have had a wonderful Fall at Beloit Memorial! As a learning community, we are continually looking to improve Beloit Memorial. One source we use to reflect on our strengths and areas for improvement is the School Report Card.

The Department of Public Instruction (DPI) generates a School Report Card and District Report Card for every publicly funded school and district in the state. These public report cards can be found online at: <http://dpi.wi.gov/accountability/report-cards>. The Report Cards are intended to help schools and districts utilize performance data to target their improvement efforts so that students are ready for their next educational step – including the next grade level, graduation, college, and careers.

The current **School Report Card is primarily based on last year's performance, the 2018-19 school year**. At the foundation of the report cards are four priority areas. Schools and districts receive a score for each priority area:

- **Student Achievement** proficiency in English Language Arts (ELA) and mathematics on the annual state assessments
- **School Growth** measured by year-to-year progress in ELA and math achievement
- **Closing Gaps** in performance between specific student groups (comparing English learners, low-income students, students with disabilities, and members of a racial or an ethnic group with their peers)
- **On-Track and Postsecondary Readiness** showing reliable predictors of how many students are on-track to graduate from high school and student readiness for post-high school success

Schools and districts are also evaluated on their level of student engagement – chronic absenteeism rates and dropout rates – when applicable.

The priority area scores are aggregated into an overall accountability score, from 0 to 100. This score is displayed in the top left corner of the School or District Report Cards. It is important to note that the 0 to 100 accountability score is not a “percent correct” measurement. Based on its score, a school or district receives one of five rating categories, from *Fails to Meet Expectations* to *Significantly Exceeds Expectations*, as well as corresponding one to five stars.

Here's some information we'd like to share from our Beloit Memorial report card:

To improve on the report card results we received, we will focus on the following in our Professional Learning Communities (PLCs). Weekly staff meet to analyze student work and identify specific skill gaps. By developing common formative assessments and planning engaging lessons, we will target the areas of content and concepts needing improvement. Our administration team will continue in classroom observations to provide specific feedback to staff which in turn will impact our instructional strategies that our teachers provide daily in our classroom.

I want to share these results with you because they help illuminate some of our successes and help to pinpoint areas of focus in our school/district. But as DPI stresses, these report cards are just one source of information about our school.

DPI has produced two versions of each Report Card: a quick one-pager labeled "School Report Card" and lengthier, detailed version labeled, "School Report Card Detail." Both versions can be accessed online at <http://dpi.wi.gov/accountability/report-cards> along with resources that explain the report cards. I have included the one-page School Report Card for Beloit Memorial here as well. As required, our School Report Card is also posted on our website: www.sdb.k12.wi.us/memorial

Please let me know your thoughts and questions as they arise. I look forward to working with you to make 2019-20 a successful school year for your child!

Sincerely,

Emily Pelz
Beloit Memorial High School Principal
