School District of Beloit Sends Out Technology Survey To School District of Beloit Families

Beloit, Wisconsin, April 3, 2020 – The School District of Beloit sent out a survey to all families in the district in order to ascertain the accessibility of devices and internet usage in each student’s home. “We want to make sure that all our students have access to the tools they will need in order to continue to stay engaged and participate in active learning during this time of school closure,” said Interim Co-Superintendent Sue Green.

The survey was distributed through text, email and the School District of Beloit app. If families did not receive the survey, they are encouraged to call their child’s school and leave their name and phone number on the school’s voicemail. Staff members will be reaching out to those families early next week.

The School District has asked that all surveys be completed by Tuesday, April 7. “We are currently putting together several options and plans to work with families in need of devices and Wi-Fi” Green shared. “The surveys will allow us to know what the current need is and how many of our families are in need.”

###

The School District of Beloit is located in Beloit, Wisconsin. Serving 6,800 students and operating six elementary schools, four intermediate schools, one high school and one alternative school, the School District of Beloit is committed to excellence and diversity. We are preparing and inspiring every student to succeed in life and contribute to an ever-changing world.
